

Last Saturday's South East Runners "No Watches" event was sponsored by Esperance Ports Sea and Land and organised by Leanne and Chris Cassam, with prizes for those competitors who most accurately predicted their finishing time. The categories were 2km walk and run events, and 5km walk and run events. The start venue was West Beach, so there were plenty of hills to add to the interest of the race.

Andy Maccan was the winner of the 2km run event, predicting his time within an amazingly close 3 seconds. Alison Reddyhough was the closest for the 2km walkers, guessing her time within 35 seconds. The 5km course was slightly short, so the winning times were not quite so close. Beth O'Callaghan was the closest for the walkers, predicting her time within 1.15; and Lara Knight the closest for the runners, estimating her time within 4.39.

There is no run next weekend due to the long weekend, with South East Runners resuming the weekend of March 8th with a trail run starting from the Rotary Lookout on Wireless Hill. Start time is 4pm on Saturday.
